

Your Official Spider Shuttle

We can care for animals—
Not just with strokes or hugs,
But even spiders in your house,
Who just come seeking bugs.
You can help them get outside;
Just use a glass and card,
Put the glass o'er top our friend;
It really isn't hard.
Then slide the card right underneath;
On top of it she'll crawl.
You can pick the whole thing up;
You won't touch her at all!
Go outside and set her free.
A "Good day!" you will wish her.
You're her friend, for now you know:
There is no need to squish her!
